THE CHARLESTON MARKET.

THE WEEK ENDING THURSDAY EVENING, MAY 24.] has indicated the approach of a great money panic—on of those emergencies in the c mmerci I world which ing the strongest firms to backruptcy. This crisis has no doubt teen mainly produced by the danger of a war in Germany, and its gradual extension to all Europe, but the great decline in Cotton and other causes not been without their influence. The last news by the Cube has probably given us a view of some and the action of the charter, which is probably to on this country is yet to be determined. In the South matters have been so prostrate for a long time that they

COTTON. -The demand for the staple has been good the week. The trade has also developed a new feature, which is the continued advance of the staple here is market has been so long in the habit of dictating the price of the staple, that we naturally look for a fall here en the market there g ee down. But the matter has ed on this occasion, and we hope for its confor the benefit of the cotton grower of the South, whose interes has long demanded a competitor to the English cotton buyer. The firmness of the New York market and the demand from Northern manufacturers, whose stock of go d Cotton, we learn, is small, has given the tone to the market here, and has, to a

AUGUSTA, May 23.—Cotron.—No demand. In the absence of buyers, the market is firm. There being no sales, quotations cannot be given.

GOLD—Advancing, Brokers buying at 130@131, and selling at 132@133.

SELVER—Brokers buying at 122, and selling at 126.

Mobile Market.

MOBILE, May 19.—Cotton.—The noon dispatches from New York to-day quote Cotton steady at 38 to 38 for Middling, and evince the same state of affairs there as exists in all of the Southern markets relative to the dispo-ition to hold on for full prices, notwithstanding the unfavorable advices from the other side.

In this market but little has been done to-day. Only a few busers entered the market, and one party taking the greater part of what was sold. Sales reached 600 bales. The market closes steady at 33 to 34 for Middling. Stack on sale light and poor.

MONETARY AND FINANCIAL.—The market opened very quiet in all departments, and continued so until almost midday, when the neon press dispatches from New York reported an advance in gold from 129% to 130%. This, added to the tremendous shipment of \$5,500,000 from new York to-day, excited the market very much, and prices advanced here at once from 129@130 to 131, and very little offering at this rate. Very little has been done in sterling, which has ruled steadily at 138 to 140 for undoubted bills.

New York Exchange has been unsettled, ranging for sight from ½ to ½ premium. Some of the banks were drawing at ½, and others at ½ premium.

New Orleans sight remains unchanged, and we continue to quote par.

New Orleans Market.

New Orleans Market.

New Oblians, May 19 — Corron.—We have again to notice a fair demand, and although the movemen was checked by the stringent pretensions of factors—at least for the better qualities—and the limited scop aforded to buyers, yet the sales summed up 2200 bales taken by thirteen brokers, at full prices for strict good ordinary up to middling, inclusive. While there has been no quotable advance to-day, yet the reneral upward tendency of p least for a day or two past requires that we should advance our outside figures for strict good ordinary and strict lew middling. We accordingly quote ordinary at 28 to 290, good ordinary at 30 to 32c, low middling at 33 to 35c, and middling at 36 to 37c.

MONEY MARKET. The New York World, Financial article of Monda

22d inst. says:

Throughout the day there was a deep undercurrent of anxiety in financial circles, in regard to the expected news from Europe, and on receipt of the telegrams from the Cuba, at Halifat, announcing the decline of five-twenty heads to 64@85, and an advance in the Bank of England's rate of discount from seven to ten per cent, there was a pressure to buy gold and to sell stocks.

Immediately after 4.30 P. M., the Cuba's news was known in the gold room, and the government broker is said to have sold over \$2.000,000 at 130% to 130% to supply the demand. After 5 P. M., sales were made at 133, and afterwards at the close at 131%. Loans were made flat, and two, three, and four per cent. were also paid for carrying gold. Government is said to have sold about \$15,000,000 to-day.

paid for carrying gold. Government is said to have sold about \$15,000,000 to-day. The foreign exchange market was dull throughout the day, pending the expected news from Europe. Prime bankers' sixty day seriling bills are quoted 109% to 109% from first and second hands, and Paris france 5 12%. 5 12%.

The weekly statement of the New York City banks shows no important differences, and no clue to the movements of the \$13.000,000 of currency required to pay for the \$10,000 000 of gold said to have been sold by Government hat week. The loans are decreased \$1,980,854, and the net deposits \$125,124. The specie is decreased \$374,937, while the legal tenders are increased \$80.448.

\$659,448.
The stock market was strong throughout the day, until the receipt of the Cuba's news after 4.30 P. M., when a raid was made on the market, and Eric was sold down to 72, Pittsburg to 84, Michigan Southern to 79%, Reading, 107%; Chicago and Northwestern to 28, New York Central to 93% to 93%, and Cumberland to 45. The market closed unsettled but strong. Parties were buyers who are of opinion that the decline is only temporary, and that war in Europe will ultimately have the effect of advancing the prices os all American securiti s.

mriti s.

The money market is more active, owing to the demand from buyers of gold from Government, and call loans range from five to six per cent.

About \$20,000,000 in currency will be required tomorrow to pay for the \$15,000,000 gold said to have been sold by Government to-day, and it is apprehended to as the some of the eager buyers to-day will be compelled to sell their gold for cash to-morrow, in order to meet their asymptotics.

son their gold for cash to-morrow, in order to meet their payments.

Government bonds are quiet but firm. Coupon five-trainties, '62, sold at 101%; coupon five-twenties, '65, 102%; coupon ten-forties, 96; seven-thirties, third series, 102%.
